Executive Summary

The Kaduna State Consumer Price Index (CPI) Report, August 2023 shows the State's Year on Year and Month on Month Inflation Rate.

The Consumer Price Index (CPI) measures the average change in the price level of market basket of consumer goods and services purchased by households and a very important key indicator of inflationary change which measures state of an economy.

The Kaduna State CPI Report is targeted at providing Kaduna State with Monthly average changes of selected Goods and Services consumed by people for day-to-day living as well as showing the Year-on-Year Inflation rate of the State.

The CPI Year-On-Year Inflation Rate for Kaduna State stands at 25.93% in August, 2023. This is 0.96% higher than the rate of 24.97% recorded in July, 2023.

Moreover, on a year-on-year basis, the headline inflation rate was 7.19% points higher compared to the rate recorded in August 2022, which was 18.74%.

Methodology

The Consumer Price Index (CPI) measures the average change over time in prices of Goods and Services consumed by people for day-to-day living. The construction of the CPI combines economic theory, sampling and other statistical techniques using data from other surveys to produce a weighted measure of average price changes in Kaduna State Economy. The weighting occurs to capture the importance of the selected commodities in the entire index. The production of the CPI requires skills of economists, statisticians, computer scientists, data collectors and others.

Key in the construction of Price Index is the selection of Market Basket of Goods and Services. The market items currently comprise of 221 Goods and Services regularly priced.

The first stage in the calculation of the CPI is the collection of prices on each item (221 Goods and Services) from Markets and Outlets in each sector (Rural and Urban). Prices are then averaged for each item per sector across the state. Then the average price is used to calculate the basic index for each commodity: The current year price of each commodity is compared with a base year's (2009) price to obtain a relative price.

The Laspeyres formula was used to compute an aggregated index for each class (which has a multitude of commodities that have similar consumption purposes). The sum of the product of weights (obtained from the expenditure survey) and relative prices for each item is divided by the sum of the weight of the items in that class, and the result multiplied by 100 gives the required index number. This index number is still classified according to the urban or rural classification sector for each of the 23 LGAs of the state.

Consumer Price Index (CPI)

Year on Year Inflation rate

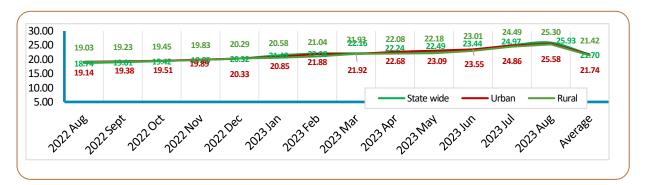

The consumer price index, (CPI) which measures inflation rate increased to 25.93% in August, 2023. This is 0.96% higher than the rate of 24.97% recorded in July, 2023. This shows that price of goods and services increased in August, 2023 when compared to the inflation rate recorded in July, 2023.

Moreover, on a year-on-year basis, the headline inflation rate was 7.19% points higher compared to the rate recorded in August 2022, which was 18.74%. This shows that the headline inflation rate on a year-on-year basis persistently increased in August 2023 when compared to the same month in the preceding year August, 2022.

Figure 1: Kaduna State Year on Year Inflation Trend 12 Month Series

Figure 2: Year on Year Inflation Trend 12 Month Series Statewide, Urban and Rural

The State average composite year on year inflation rate is 21.70% in August, 2023 showing 0.68% increase from 21.02% recorded in July, 2023.

The corresponding twelve-month year-on-year average percentage change for the Urban index is 21.74% in August, 2023. This is higher than 21.23% reported in July, 2023 while the corresponding Rural inflation rate in August, 2023 is 21.42% compared to 20.23% recorded in July, 2023.

Month on Month Inflation Rate

The Kaduna State Month – on – Month CPI shows that the State Index stands at 357.68% in August, 2023. The Urban Index recorded 353.01% while rural index recorded 362.57% in August, 2023.

The State CPI Month – on - Month Inflation rate was 37.99% in August, 2023, up by 0.28% from 37.71% recorded in July, 2023.

The Urban Inflation Rate was 38.07% in August, 2023, increased by 0.29% from 37.78% recorded in July, 2023.

The Rural Inflation Rate was 37.88% in August, 2023 increased by 0.31% from 37.57% recorded in July, 2023.
